

Fiber Optic Coupler Screw Connector

Overview

The FC Fiber Optic Connector (Ferrule Connector or Fixed Connection) is a precision screw-type connector widely used in single-mode optical networks requiring high mechanical stability and repeatable optical performance. For use with Polarization-Maintaining Fiber, we offer the 30125D2 FC/PC style connector. This connector's key is continuously adjustable, allowing precise alignment with the axis of the PM fiber. Unlike fiber splicing, which is permanent, connectors allow for easy connection and disconnection of cables, making them ideal for maintenance and flexibility in. Fiber Optic Connectors are in stock with same-day shipping at Mouser from industry leading manufacturers. Mouser is an authorized distributor for many fiber optic connector manufacturers including Amphenol, Broadcom, Glenair, JAE, L-Com, Molex, Radiall, TE Connectivity & more.
