

Price List for Custom-Made Austrian Mesh Cable Trays

AI Overview

Custom Austrian mesh cable trays typically range from \$10 to \$50 per meter, depending on material, size, coating, and customization options.

Pricing Overview

The cost of custom wire mesh cable trays varies based on several factors:

- Material:** Galvanized steel is the most common and cost-effective, stainless steel offers superior corrosion resistance but is pricier, and aluminum is lightweight and rust-proof, generally costing more than steel.
- Size and Dimensions:** Widths typically range from 200 mm to 500 mm, heights from 50 mm to 200 mm, and lengths from 300 mm to 3000 mm. Larger trays or higher load capacities increase the price.
- Coating and Finish:** Hot-dipped galvanized (HDG) trays are more durable outdoors, powder-coated trays offer color options and wear protection, while pre-galvanized trays are cheaper but less resistant to corrosion.
- Customization:** Custom bends, tees, risers, and lengths are available to accommodate complex routing, which can affect pricing.

Typical Price Ranges

- Steel wire mesh trays: \$10–\$30 per meter
- Aluminum trays: \$20–\$50 per meter
- Stainless steel trays (304 or 316): \$25–\$50 per meter, depending on thickness and mesh diameter

Bulk orders or project-specific quotations can reduce costs significantly, sometimes by 30–50% if imported from regions like China. Optional accessories, covers, and installation services may add to the total cost.

Suppliers and Customization

Several manufacturers and B2B platforms provide custom Austrian mesh cable trays:

- JLH Electric:** Offers stainless steel trays in custom sizes with competitive factory pricing, suitable for indoor and outdoor installations.
- Alibaba and Ningbo Lepin Network:** Provide CE-certified steel trays with free samples and 10-year guarantees, ideal for industrial applications.
- Local suppliers:** Companies like Hutaib Electricals in India offer pre-galvanized or stainless steel mesh trays with fast install...
