

Price of a 4-port waterproof terminal box

AI Overview

The price of a 4-port waterproof terminal box typically ranges from \$10 to \$50, depending on type, material, and IP rating.

Electrical Junction Boxes For general electrical use, a 4-terminal waterproof junction box with IP66 protection, suitable for outdoor installation, is available from suppliers like Screwfix. For example, the MK IP66 30A 4-terminal weatherproof outdoor junction box measures 95mm x 65mm x 95mm and is priced around \$15-\$20 per unit. Higher-end industrial boxes with IP67 or IP68 ratings, made from diecast aluminum or UV-resistant plastic, may cost \$30-\$50, offering superior protection against immersion, heat, and oil exposure.

Fiber Optic Termination Boxes For fiber optic applications, 4-port waterproof terminal boxes are designed to protect splices and connectors in outdoor environments. Examples include:

- HTB8060 4 Ports IP65 FTTH Outdoor Fiber Terminal Box:** Provides secure termination, splicing, and storage for up to 4-8 splices, suitable for wall or pole mounting. Prices for these boxes generally range from \$20 to \$40, depending on features like integrated PLC splitters or pre-installed adapters.
- Abalone 4-Port Wall-Mounted FTB:** Constructed from UV-resistant ABS with a sliding lid for easy access, typically priced around \$15-\$30.

Factors Affecting Price

- Material:** ABS plastic is cheaper, while diecast aluminum or polycarbonate enclosures are more expensive.
- IP Rating:** Higher ratings (IP67/IP68) increase cost due to better water and dust protection.
- Application:** Fiber optic boxes with splice trays, splitters, or pre-terminated connectors are more costly than basic electrical junction boxes.
- Mounting and Accessories:** Wall or pole mounting kits, cable glands, and internal terminal blocks can add to the price.

In summary, a basic 4-port waterproof terminal box can be purchased for \$10-\$20, while more robust or feature-rich models, especially for fiber optic or industrial use, may cost \$30-\$50 per unit.
