

Wholesale price of 96-core optical cable

AI Overview

The wholesale price of 96-core optical fiber cable typically ranges from \$0.50 to \$2.50 per meter, depending on type, manufacturer, and order volume.

Price Overview Wholesale 96-core optical fiber cables are available from multiple manufacturers and distributors, with prices influenced by factors such as cable type (indoor, outdoor, ADSS, OPGW), fiber quality (ITU-T G.652.D/G.655), and customization options. On platforms like Alibaba and Made-in-China, bulk orders can significantly reduce per-meter costs, especially when sourcing directly from OEM factory suppliers. For example, standard ADSS or indoor 96-core cables are often priced around \$0.50–\$1.50 per meter, while specialized OPGW or armored cables may reach \$2–\$2.50 per meter.

Supplier Options Chinese OEM Manufacturers: Offer competitive pricing, customization, and direct factory quotes. They can supply large volumes and provide technical specifications for high-bandwidth applications. International Suppliers: Platforms like Alibaba provide verified suppliers with durable, low-loss cables suitable for telecommunications, data centers, and high-speed networks. Specialized OPGW Suppliers: Companies like GL FIBER provide armored 96-core cables with factory pricing, OEM support, and compliance with international standards (IEEE, IEC), suitable for transmission lines and large-scale projects.

Factors Affecting Price Cable Type: Outdoor, armored, or OPGW cables are more expensive than standard indoor cables. Fiber Quality: Low-loss, ITU-T compliant fibers increase cost. Order Volume: Larger orders reduce per-unit cost due to economies of scale. Customization: OEM/ODM options, such as specific jacket materials, connectors, or packaging, can affect pricing. Shipping and Import Fees: International shipping, customs, and local taxes may add to the total cost.

Procurement Tips Request direct quotes from multiple OEM suppliers to compare prices and specifications. Verify quality certifications and test reports to ensure compliance with industry standards....
