

Zambian Communication Optical Module

Overview

High-speed 10G SFP multimode optical module (transceiver) designed for stable short-distance fiber connections up to 300m using 850nm wavelength. Fully compatible with Huawei and Cisco, it delivers reliable 10Gbps performance for enterprise networks, data centers, and office LANs. AITAF provides end-to-end optical communication solutions, structured cabling, ODN, optical modules, fiber testing instruments, data center networks, base station energy, smart city communications. Listings are verified with accurate business information. Last updated May 2026 We found 11 listings in Zambia Suite 15. It provides the SC. Optical Zonu's GPS Fiber Transport links connect your GPS antenna and receiver in situations where coaxial cable is not desirable or practical.
